(54) PHOTO IMAGE PRINTER

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a photo image printer capable of preventing a memory card from being inserted to an erroneous card slot.

SOLUTION: A memory card connecting section 10 is moved by moving a selection lever so that one of the card slots 11, 12, 13 is selected to be communicated to an opening section 391. As a result, it is possible to insert one of the memory cards 14, 15, 16 into the opening section 391 to be connected to the memory card connecting section 10. As one opening section 391 for the insertion of the memory cards 14, 15, 16 is provided, a user can easily find the position to insert the memory cards 14, 15, 16 so that it is possible to prevent the user from inserting the memory card into an erroneous card slot.
